*"THIS WAS THE BEST TRAINING I HAVE BEEN TO IN YEARS. IT WAS ENGAGING, EDUCATIONAL, AND USEFUL, AND I WALKED AWAY WITH TOOLS AND EXCITEMENT FOR MY WORK."*

# GRIEF & LOSS TRAINING SERIES: IMPACT AND WHAT IS STILL NEEDED

## Impact

Many participants expressed that they were provided relevant strategies, useful interventions, and common language to use as they prepare for the new year.

---

**“The trainers were so thoughtful and I loved the examples that they provided. I left the training with specific tools to use (ex: digital sand tray).”**

## Preparing for our New Normal

As changes to the way we teach and support our kids continue to evolve, so do our methods.

---

**“The topic is timely and we are beginning to turn our attention to ending the school year and preparing for the next and want to understand the issues. This training provided a framework for this process.”**

## Strengthen School-Wide Support

Expanding access to other school staff in addition to administrators would be helpful in strengthening school-wide support.

---

**I would like support to do "direct follow up for LEA teams."**

## Additional Creative Interventions

One of the most popular aspects of the training was the interventions. Expanding on how to apply these learnings is crucial.

---

**“How to use mindfulness in grief therapy, and how to engage a child who is resistant to addressing grief/loss.”**

## Group Therapy Intervention

Additional trainings on how to conduct group therapy sessions as a way to cope with grief & loss is desired.

---

**“I am interested in learning more about group work, and learning ways to manage group dynamics when individuals are sharing regarding their grief, loss, and trauma experiences.”**
